Cell Biology Notes · Question 5 of 10 | Method: PEEL

Timer: Off | Pause and save

Why do cells need mitochondria to survive?

Show source passage

Timer is optional. Turn it on for exam practice.

Start with your Point...

184 words · Saved just now

Submit for feedback

PEEL checklist

- [x] P: State your answer in one sentence
- [ ] E: Add evidence from the text
- [ ] E: Explain why it matters
- [ ] L: Link back to the question

Fox tip (optional helper)

Nice work. Strong evidence here!

Draft 1 · PEEL

P · Strong ✓

Mitochondria give cells the energy they need to live.

E · Strong ✓

The textbook says one cell makes millions of ATP per second.

E · Needs work ⚠

This is important because energy is used.

L · Missing ⚠

No linking sentence yet.

3 of 4 PEEL parts landed

Strengths

✓ Clear point in your first sentence

✓ Evidence is specific and from the text

To improve

⚠ Explain: say what ATP does in the cell. Jump to it

⚠ Link: add a closing sentence back to the question. Jump to it
